Postdoctoral Research Associate
The Center for Research on Child Wellbeing (CRCW), affiliated with the Woodrow Wilson School and the Office of Population Research at Princeton University, invites outstanding researchers to apply for appointments each academic year. CRCW conducts research on children's health, education, income, and family structure. Our three major initiatives are the Fragile Families and Child Wellbeing Study, the Future of Children Journal, and the Princeton Global Network on Child Migration.

CRCW is offering highly competitive Postdoctoral Research Associate positions to individuals with documented interest in the study of children and families, and in interdisciplinary collaborations. Appointments are for one year with the possibility of renewal, pending satisfactory performance, with negotiable starting dates for the next academic year. This appointment is for scholars who have obtained their PhD within the past three years.

QUALIFICATIONS: Postdocs are expected to have outstanding potential and be self-motivated, goal oriented and capable of successfully communicating ideas to diverse audiences. They must also be able to build on existing strengths, bridge different fields, and be motivated to work with faculty on complex projects. Preference will be given to candidates that have obtained the Ph.D. less than two years ago. Postdocs will participate in all of the Center’s activities, including student-faculty seminars, workshops, and public lectures.

Applicants should apply online at https://jobs.princeton.edu and submit:

- a cover letter describing areas of interest, graduate training, relevant background and possible fit within the center
- recent CV
- names, e-mails and phone numbers of three references
