Learn how we inform through evidence, empower others, and advance the well-being of current and future generations.
The successful launch of the annual meeting of the Population Association of America takes many committed PAA members and staff. The 2018 Program Committee issued a broad Call for Papers with 148 sessions covering 11 topics that represented the diversity and interdisciplinary nature of population research addressed by demographers, sociologists, economists, political scientists, geographers, historians, epidemiologists, public health researchers, statisticians, marketers, survey researchers, and other health and social scientists. Session Organizers reviewed close to 4,000 submissions, making difficult choices about what papers to include in the 252 oral sessions. These hardworking and dedicated committee members and organizers are listed in the printed program and on the PAA web page. The 2018 program has 15 invited sessions, including many organized by PAA committees. All of the invited sessions focus on some of the most important population issues of our day. The 11 poster sessions were organized by John Iceland, with assistance from Sarah Ludwig-Dehm, Mike Martin, Susana Quiros, Jack Byerly, Matt Hall, and Greg Sharp, and input from the many session organizers who recommended papers from their sessions for consideration in the poster sessions. A special thanks also goes to Jason Boardman and Philip Morgan, who organized the two speed poster sessions that we piloted at the meeting. The high volume and quality of volunteer labor of PAA members has resulted in an exciting program featuring new demographic data, methods, and research.

We regret the U.S. government’s policies that made it challenging for several international colleagues to attend the meeting. We offer our heartfelt welcome to all PAA attendees, including those from all over the globe; thank you for coming to PAA! A statement of inclusion and welcome to all population researchers is posted on the association’s website.

PAA is run by and for the PAA membership. We know there is always room for improvement and we will work with next year’s program co-chairs to continue to enhance the PAA annual meeting experience. Please join us and provide feedback in the membership meeting on Saturday. Also, consider share exciting moments from the meeting on social media #PAA2018.

Our small, but mighty, staff has ensured our meeting is a success. Danielle Staudt, PAA’s Executive Director, deserves many thanks for managing our organization and all the conference logistics, including negotiating free Wi-Fi throughout the meeting space and additional perks from vendors and sponsors. Bobbie Westmoreland, Program and Communications Manager at PAA, completed her second full year handling day-to-day and big picture projects to bring us to a fully functioning PAA program. We all benefited from Bobbie’s superior efforts to set the program. You will see Bobbie and Millicent Minnick facilitating the poster sessions over the next three days. We also thank Francesca Morton, Finance and Meeting Manager. She has ensured the registration runs smoothly and has facilitated a great set of member-initiated meetings. We are grateful to our fabulous center and department colleagues and staff at Bowling Green State University (Center for Family and Demographic Research) and Pennsylvania State University (Population Research Institute) for their research, financial and moral support. A special shout out goes to Krista Payne, Elizabeth Allen-Dachik and Lesley Wadsworth at BGSU. Last, but not least, we thank the paper and poster contributors, session chairs, discussants, organizers of the member-initiated meetings, and poster judges.

The PAA meeting is truly a communal effort. Most of all we thank the PAA members who are the heart and soul of these stimulating meetings. Our field expands with the amazing research that is shared each year.

THE PAA FUND CAMPAIGN

I am pleased to announce that PAA members, friends and supporters continue to contribute to the PAA Fund and made 2017 another successful fundraising year. We raised almost $70,000.

Some of these funds have been given in honor of our mentors or colleagues, and some have been contributions. Regardless of the type of gift or the amount, we know the funds are being put to good use supporting congressional policy briefings, expansions of Demography, and our international outreach programs. Donations also have supported activities that promote and enhance demographic data and research, educate the public, and improve the PAA’s outreach and member services.

The Honor-a-Colleague program continues to recognize those who have meant so much to our careers. If you would like to make your donation in honor of a mentor, colleague or collaborator, please do so. When gifts in honor of a colleague reach $5,000, the honoree will have his/her name, a short biography and the list of contributors placed on the PAA website. If you are thinking about starting a campaign to honor your mentor or your favorite PAA member, contact Bobbie Westmoreland (bobbie@popassoc.org). The 2018 honorees thus far are Christine Bachrach, Hans-Peter Kohler, Robert Pollak, Duncan Thomas, and Robert Moffitt.

Join those who have remembered PAA in their estate plans. Members of the Lotka Society are leaving a Legacy to PAA in their will or other estate plans that will help to ensure the future of the PAA while offering you some valuable tax benefits. Alfred J. Lotka is acknowledged as a founding father of both demography and ecology.

The PAA is an association of kindred spirits and long-cherished professional colleagues. We have gathered resources through this campaign so that the next generation of population scientists will look to the future with enthusiasm and confidence. Although the campaign has enabled us to greatly expand the depth and reach of our work, the PAA continues to rely on financial support. I hope that each of us will continue to do our part.

I thank all of you on the following list for your generous support of the PAA.

Sincerely,

Wendy D. Manning

The Panel Study of Income Dynamics (PSID) is the world’s longest running national household panel survey. Begun in 1968, the study has collected 40 waves of data from the same families and their descendants over nearly 50 years. More than 10,000 families participate in the PSID, including a refresher sample of immigrant families added in 2017. Because PSID follows descendants of original sample members, the study is a unique source for studying the intergenerational transmission of health & economic wellbeing.

*NEW* data from the 2016 Wellbeing and Daily Life Supplement (PSID-WB) are now available. PSID-WB provides data from PSID heads and spouses/partners on wellbeing, personality traits, and cognitive skills.

Child Development Supplement (CDS) & Transition into Adulthood Supplement (TAS)

- Measures of child/adolescent cognitive, physical, social and behavioral development as well as unique comprehensive national time-use information on children and youth of all ages.
- Original CDS & TAS: Three waves of CDS data on 3,500 children aged 0-12 from PSID families who were first interviewed in 1997, re-interviewed in 2002 at ages 5-18, and again in 2007 at ages 10-18.
- Six waves of TAS data were collected biennially from 2005-2015 for CDS young adults aged 18 years and older.
- Ongoing CDS & TAS: A *NEW* round of CDS (CDS-2014) with data from over 4,300 children and caregivers is now available.
- The 7th wave of TAS will collect data in 2017 from young adults ages 18-28 from all PSID families, regardless of their CDS participation.

The vast majority of data are freely accessible through the web-based Data Center which provides customized datasets.
