Room assignments are not yet confirmed.

**Open to PAA 2020 Attendees. Contact the organizer for more information.
**Introduction to Using the UC Berkeley Social Networks Study Panel Data**  
Stephanie Child, schild07@gmail.com

**The National Death Index: New Opportunities for NIH-Supported Research**  
Rebecca Clark, rclark@mail.nih.gov  
The National Institutes of Health (NIH) and the Centers for Disease Control and Prevention\National Center for Health Statistics (NCHS) are initiating new policies and procedures to improve access to the National Death Index for researchers supported by the NIH. The process of receiving permission and clearance to use and link other data to the ND1 will be clarified and streamlined, and costs to individual research teams will be reduced or eliminated. Representatives from the NIH (Office of Behavioral and Social Sciences and Research, National Institute on Aging, and the Eunice Kennedy Shriver National Institute of Child Health & Human Development) and NCHS will present information on the new policy. https://www.cdc.gov/nchs/ndi/index.htm

**Roundtable Discussion: Priorities in International Migration Research and Statistics: Prospects for a World Migration Survey**  
Ellen Kraly, ekraly@colgate.edu

**Southern Demographic Association Board Meeting**  
Johnelle Sparks, johnelle.sparks@utsa.edu  
Annual mid-year SDA board meeting.

**NICHDPopulation Dynamics Branch Center & Training Directors Meeting**  
Rebecca Clark, rclark@mail.nih.gov  
The annual grantee meeting for the principal investigators of Population Dynamics Research Infrastructure Program (PDRIP) [P2C], institutional training [T32], and Data Sharing for Demographic Research (DSDR) grants funded by the NICHDPopulation Dynamics Branch.

Thursday, April 23

**The National Survey of Family Growth (NSFG) Workshop**  
Gladys Martinez, gmartinez@cdc.gov  
The staff of the National Survey of Family Growth (NSFG) will conduct a free workshop for researchers interested in using the NSFG. The NSFG has been collecting data since 1973. In December 2018, the NSFG released public-use data files for 2015-2017 containing a national sample of 10,094 men and women 15-49 years of age.

Public-use files with all necessary documentation are available for free on the NSFG webpage. The workshop will give a broad overview of the survey design and content, as well as the available public-use and restricted-use data files.

We will demonstrate how to find the variables needed for your analysis using our online codebooks, how to use weights and estimates variances appropriately for the NSFG, and where to find other relevant documentation on our webpage.

In addition, members of the NSFG team will be available to answer questions and to assist researchers individually in determining how to pursue their research goals using the NSFG.

If you have any questions about the workshop, please contact the NSFG team at nsfg@cdc.gov.

* Room assignments are not yet confirmed.
